AMENDMENT

Commissioner for Patents
Washington, D.C. 20231

Date: January 2, 2003

Sir:

In response to the Office Action dated July 1, 2002, please amend the above-identified application as set forth below:

IN THE CLAIMS:

Amend the claims as follows:

1. (Twice Amended) A flame-sprayed aluminum-alloy, containing from 12 to 60% by weight of Si, the balance being essentially Al, the aluminum-alloy flame-sprayed by means of high velocity oxy-fuel flame-spraying method (HVOF) onto a substrate roughened by shot blasting, and includes granular Si particles dispersed in the matrix of the aluminum alloy, the granular Si particles having a short-diameter/long diameter ratio of 1/3 or more and some of the granular Si particles having an average particle size greater than 10 μm , and further said flame-sprayed aluminum alloy has adhesive strength of film higher than
